The bizhub PRO C6000L is ideally designed to meet a growing need for high-quality, cost-effective color printing in corporate and light production applications. Its optimized 1,200 dpi resolution and Simitri® HD toner give you spectacular image quality that communicates more effectively. Print/copy output of up to 60 ppm in both Color and B&W helps you keep ahead of high-volume document traffic. Real-time image density control sensors maintain unsurpassed image stability from first to final print. You can handle a wide range of media, including heavy stock and oversized 13" x 19.2" proofs. You'll have auto finishing options to produce full-color booklets, reports, even flyers and direct mail pieces in-house and on-demand. Konica Minolta's custom-designed IC-601 Image Controller provides high-speed scanning to multiple destinations, to streamline your workflow — and higher reliability gives you a document solution you can always count on.

Superior color with production-class reliability.
