DO BUSINESS BETTER

FAST COLOR WITH HIGH IMPACT.

When performance is a priority and image counts, the magicolor® 5670EN color laser printer makes a big impact. This high-speed network printer is quick, printing at 37 ppm—with a first page out in as fast as 14 seconds—to keep the workflow moving. It provides outstanding color for true-to-life images and vibrant graphics that stand out. And the magicolor 5670EN is built on an Emperon® print system integrated with Konica Minolta software solutions for advanced document processing. Office-smart conveniences, including direct photo printing, optional auto duplexing and banner-size media support round out the package to keep productivity at top speed.

PERFORMANCE DRIVEN

Powered by Emperon. For demanding print requirements, the magicolor 5670EN uses an Emperon print system, coupled with an ultra-fast processor, to deliver pages at speeds up to 37 ppm in color and B&W.

Network know-how. Equipped with a Gigabit Ethernet interface, the magicolor 5670EN fits right into mixed-platform teams. Windows, Macintosh® and Linux® compatible, it features PostScript 3 and PCL 6 emulations and includes TCP/IP (IPv6, SSL, IPsec), NetWare®, EtherTalk® and WSD protocols for seamless document production and the latest in network security.

OFFICE-SMART SOLUTIONS

Direct productivity. To keep the work team productive, the magicolor 5670EN offers time-saving solutions, including the ability to print photos straight from your camera and to direct print* XPS, PDF, JPEG and TIFF files from a USB flash drive.

*Requires opt. hard drive or compact flash card (PDF, JPEG, TIFF); requires opt. hard drive (XPS)

COUNT-ON-IT COLOR

Color that's on the mark. A business printer with exceptional color means a great image—both on paper and for your office. Konica Minolta's expertise in color imaging and the magicolor 5670EN's 9600 x 600 dpi-class resolution means excellent quality on every print.

Reliable—page after page. To maintain a high productivity level, you need equipment that you can depend on. With 600-sheets paper input (expandable to 1,600) and a monthly duty cycle of 120,000 pages, the magicolor 5670EN easily tackles high-volume tasks.

PRINT AND DELIVER. AN OPTIONAL STAPLE FINISHER PROVIDES TWO OUTPUT BINS, AUTOMATIC STAPLING OF UP TO 30 SHEETS, JOB SEPARATION AND OFFSET STACKING.

DIRECT PRINT AT A MOMENT'S NOTICE. YOU CAN PRINT XPS, PDF, JPEG AND TIFF FILES DIRECTLY THROUGH PAGESCOPE WEB CONNECTION WITHOUT OPENING APPLICATION PROGRAMS, AND FROM USB FLASH DRIVES WHEN AN OPTIONAL HDD OR COMPACT FLASH CARD IS INSTALLED.

PAGESCOPE KEEPS YOU ON TRACK. THE PAGESCOPE SOFTWARE SUITE OFFERS POWERFUL USER AND ADMINISTRATIVE TOOLS TO MONITOR AND MANAGE PRINT JOBS AND DEVICES—FROM THE CONVENIENCE OF YOUR WORKSTATION.

FEATURES, OPTIONS & BENEFITS

Fast prints in an instant. With a first page out in 14 seconds and subsequent color and B&W prints following at 37 ppm, the magicolor 5670EN easily manages the busiest document traffic.

Equipped with new office standards. Among the first in the industry to support Vista-native XPS, the magicolor 5670EN is equipped for today's business landscape.

Duplex, staple and deliver. Equip the printer with a duplexer for two-sided prints and lessen the impact on the environment by using 50% less paper. A staple finisher sorts, offset stacks, and staples to create documents that are ready to distribute.

Broad media support. The magicolor 5670EN uses an array of paper sizes, from postcard to banners (8.5" x 47.24"). And it supports a variety of stocks—including thick stock up to 110 lb. index, glossy media, labels and envelopes—to cover every business application.

Advanced print duties. The printer's powerful 40 GB hard disk (optional) initiates advanced features including fonts and forms storage, secure printing, job collation and direct print. An optional compact flash card* can be added to access many of these advanced functions.

*Compact flash cards available only from 3rd-party vendors.

High-yield supplies—less downtime. Toner that yields 6,000 or 12,000 prints (CMY and K) puts an end to frequent replacement and user intervention. Select Economy Print and reduce toner usage on drafts and reference materials.

Quality and consistency. 9600 x 600 dpi-equivalent resolution creates documents with brilliant, natural color and realistic reproduction. Enhanced Automatic Image Density Control (eAIDC) further enhances prints by automatically calibrating the printer for flawless accuracy on all jobs—long or short.

Easy from setup to print. The magicolor 5670EN is up and running in minutes with pre-installed supplies and auto-run software that guides you through set up.
